About the College

Thangal Kunju Musaliar College of Engineering is one of the premier institutions of national importance in higher technical education, basic and industrial research. It was established in 1958 as the first grant-in-aid engineering college in the state of Kerala by the late Janab A Thangal Kunju Musaliar, an industrialist, philanthropist and a great visionary who played a pivotal role in providing the much needed momentum to the state's economy. Started with three branches and 120 students, the college now admits more than 600 students in the 8 under graduate programs. The college also offers post graduate programs in engineering, management and computer applications. All the B Tech and M Tech programs have been accredited by the National Board of Accreditation. The institute has organized several symposia, seminars, conferences and workshops of national and international importance. The campus is located 5 kms away from Kollam aside NH 744 and 70 km from international airport.

About the Department

The Department of Electrical and Electronics Engineering, TKMCE, Kollam was started in the year 1958 with student strength of 40. The degree offered was BSC (Engineering) in Electrical Engineering as its initial stage. Right from the beginning, the department has been rated very high performance in academic circles. The graduates from this department include many renowned technocrats, academicians and researchers, working all over the world. It offers one Under-Graduate programme (B.Tech.) in aided stream and one Post-Graduate programme (M.Tech. in Instrumentation and Control) in self-financing stream. The Department also offers Part time Degree course in Electrical & Electronics Engineering for Diploma holders who are employed in the engineering profession.

The major objectives of TEQIP project are

☞ Strengthening Institutions to produce high quality engineers for better employability.

☞ Scaling-up postgraduate education and demand-driven Research & Development and Innovation Establishing Centers of Excellence for focused applicable research

☞ Training of faculty for effective Teaching, andEnhancing Institutional and System Management Effectiveness.

About the Course

The objective of this Staff Development Programme is to make the faculty aware about the electrical safety, safety precautions and maintenance.

Course Topics

- *Electrical safety at work place*
- *Human safety while handling the Electrical equipments*
- *Fire and safety*
- *Industrial safety*
